

## § 1952.376

exercise of any right afforded to the employee by the Act, although such complaints may be referred to the State for investigation. The Assistant Secretary also retains his authority under section 6 of the Act to promulgate, modify or revoke occupational safety and health standards which address the working conditions of all employees, including those in States which have received an affirmative 18(e) determination, although such standards may not be Federally applied. In the event that the State's 18(e) status is subsequently withdrawn and Federal authority reinstated, all Federal standards, including any standards promulgated or modified during the 18(e) period, would be Federally enforceable in that State.

(d) As required by section 18(f) of the Act, OSHA will continue to monitor the operations of the Virginia State program to assure that the provisions of the State plan are substantially complied with and that the program remains at least as effective as the Federal program. Failure by the State to comply with its obligations may result in the revocation of Federal enforcement, and/or proceedings for withdrawal of plan approval.

## Subpart FF—Puerto Rico

## § 1952.380 Description of the plan.

(a) The plan designates the Puerto Rico Department of Labor and Human Resources as the agency responsible for the administration and enforcement of the plan throughout the Commonwealth. This includes the responsibility for administration of a public employee program for which the same enforcement provisions and procedures used for the private sector will apply, with the exception of penalties. Penalties in the Commonwealth's Act for the private sector are essentially identical to those in the Federal Act, and Puerto Rico intends to adopt all Federal standards. The Commonwealth will exclude from coverage all industries included within the classifications of Marine Cargo Handling (SIC 4463) and Shipbuilding and Repairing (SIC 3713), but will adopt and enforce standards for boilers and elevators and other issues where no Federal OSHA standards exist. The plan provides that program personnel will be employed under a merit system and provides for a Management Information System. It also provides procedures for the development and promulgation of standards and procedures for the prompt restraint or elimination of imminent danger situations.
